

# Oetiker PureLine®

## High-Precision Cleaning.

## For Industries where Cleanliness is Paramount.

Oetiker has developed Oetiker PureLine®, a high-precision cleaning process for the most sensitive environments. Our sustainable process is performed in a cleanroom setting, ensuring reliably clean products.

Oetiker PureLine® clamps are double-bagged and vacuum-sealed, while PureLine assembly solutions are paint-free and lubricated with a special, food-safe grease.

These solutions have been designed to ensure system integrity in applications like BioPharma Single Use Systems, meeting the cleanliness requirements for cleanroom applications.

### Benefits of PureLine

- Sustainable material
- Suitable for cleanrooms
- Vacuum-sealed\*
- Double-bagged packaging\*

\* Applies to Oetiker PureLine® clamps

## OETIKER PURELINE® – CLAMP PORTFOLIO

### StepLess® Ear Clamps Dual Slide 167 – PureLine

Stainless Steel  
11.9-30.8 mm

**DualSlide Technology:** to mitigate friction during closing

**360° StepLess®:** uniform compression and surface pressure

### StepLess® Ear Clamps 167 – PureLine

Stainless Steel

**505 band:** 6.5-8.0 mm + 8.7-11.8 mm  
**706 band:** 31.6-54.5 mm  
**1008 band:** 28.5-41.0 mm

**Narrow band:** concentrates transmission of clamping force

**360° StepLess®:** uniform compression and surface pressure

### 1-Ear Clamps with insert 154 – PureLine

Stainless Steel  
4.1-25.5 mm

**Compact one-piece clamp:** for robust, secure connections, miniature sizes

**Clamp ear:** fast and simple installation

**Pre-shaped insert:** effective and powerful all-around seal

### Clamps ER 194 – PureLine

Stainless Steel

5.8 mm + 9.6 mm

**Compact:** lightweight, miniature sizes

**Low installed height:** minimum space requirement

## OETIKER PURELINE® – ASSEMBLY SOLUTION PORTFOLIO

### Pneumatic Pincer ME – PureLine

For high-volume assembly of Ear Clamps and Low Profile Clamps.

Recommended for mission-critical Medical applications

Easy handling

### Electronically Controlled Pneumatic Pincers – PureLine

For high-volume assembly of Ear Clamps and Low Profile Clamps.

Recommended for mission-critical Medical applications

Securing traceability and repeatability
